

Turtle Healing Band Clinic

“Personalized Care for Optimal Health”

PHOTON PROTOCOL*

Products/Equipment

- Calcium 8-ounce bottle¹
- Calcium 2-ounce bottle²
- Magnesium 8-ounce bottle¹
- Magnesium 2-ounce bottle²
- Potassium 8-ounce bottle¹
- Potassium 2-ounce bottle²
- Photon Sound Beam (“PSB”)
- Pulsed EMF (“PEMF”)

Liquid Instructions

1. Hold one dropperful under the tongue for 30 to 60 seconds before swallowing.³
2. Take 10 minutes before, after, or between meals.
3. Take each liquid three times daily.⁴
4. Repeat steps 1-3 daily.

PSB Instructions⁵

1. Put RF Pack⁶ around the neck beneath clothing on the upper part of the sternum.
2. Place the surface of the rectangular RF Pack labeled “body side” against the skin.⁷
3. Put straight glass tube in “ground” and hold in left hand.
4. Put L-shaped glass tube in “output” and hold in right hand.
5. Turn on button “1”.⁸
6. Turn on button “2”.⁹
7. Adjust “audio level” intensity to tolerance.¹⁰
8. Use for 24 minutes.¹¹

PEMF Instructions¹²

1. Lay mat on a flat surface.
2. Use “Relax” setting
3. Set timer for 24 minutes.

Directions

1. Use PSB and PEMF together X 24 minutes at least once daily (as instructed above).
2. Take liquids at least once daily (as instructed above).
3. Complete Daily Worksheet.

¹2-ounce bottle should provide approximately 60 doses.

²8-ounce bottle provides refills for the 2-ounce bottle.

³Sublingual use allows minerals to bypass digestion.

⁴Liquids may be separately but not mixed together.

⁵Read Instruction Manual for setup.

⁶RF produces a high radio frequency short wavelength.

⁷A blinking light in lens indicates it is in an operating mode.

⁸Power Sound Probe.

⁹Glass Tubes.

¹⁰Sound produced is 432 Hertz.

¹¹This coincides with maximum time setting for QRS.

¹²Read Instruction Manual for setup.
